

Founded in 1855, The Weitz Company has a long history of serving the U.S. industrial market with industry leading construction services. Developing solutions to optimize customer resources is our focus. We incorporate an “open book”, transparent approach to help each customer make informed decisions that will maximize value and control costs. Our customers experience organized execution of their project according to plan.

We have extensive experience providing construction services including complete turnkey approaches and integrated solutions for manufacturing, processing, distribution and warehousing facilities. We serve customers by not only providing the right design and building solutions but also the specialty installation of material handling systems.
